Education

KPR Institute Of Engineering And Technology, Anna University
Bachelor of Engineering - Biomedical Engineering, CGPA: 8.5

Jan 2018 - March 2022

Technical Skills

• React.js • Redux • JavaScript (ES6+) • HTML5 • CSS3 • Node.js • Express.js • RESTful APIs • MongoDB • Authentication • Authorization • JWT • Role-Based Access Control (RBAC) • API Integration • Database Optimization • Performance Optimization • Agile Development • Code Reviews • Cross-Functional Collaboration • Debugging • Software Development Best Practices

Experience

Krypc Technologies

Feb 2022 - Jan 2025

Full Stack Developer

Bangalore, Karnataka

- Developed and maintained **responsive, reusable React.js components** using **React.js, Redux, JavaScript, HTML5, and CSS3**, improving application performance and user experience.
- Integrated **RESTful APIs** and collaborated with **UI/UX designers** and backend developers to deliver scalable web applications in **Agile** environments.
- Designed and developed secure **RESTful APIs** using **Node.js** and **Express.js**, implementing business logic, authentication, authorization, and input validation.
- Optimized **MongoDB** schemas, queries, and data models to improve database performance and enable seamless frontend-backend integration.
- Participated in **code reviews**, debugging, feature development, and performance optimization while following software development best practices.

Tem Technologies

Feb 2025 - Feb 2026

Software Specialist

Chennai, Tamil Nadu

- Designed and developed scalable backend services using **Node.js, Express.js**, and **RESTful APIs** for business-critical applications.
- Implemented secure **JWT authentication** and **Role-Based Access Control (RBAC)** to ensure secure application workflows.
- Built and optimized **MongoDB** schemas, indexes, and aggregation pipelines, improving query performance and handling large datasets efficiently.
- Leveraged **Generative AI** and **Prompt Engineering** techniques to accelerate development workflows, automate repetitive tasks, and improve developer productivity.

Projects

StandupIQ AI - Node.js | React | Typescript | Express.js | Gemini AI

- Developed a full-stack AI analytics platform using **React.js, Node.js**, and **Gemini AI** to analyze engineering standup updates and generate actionable project insights.
- Integrated **Microsoft Teams APIs** and built backend services to transform unstructured communication into structured project metrics, blockers, and sprint risks.
- Developed interactive **React.js dashboards** and leveraged **Generative AI** with **Prompt Engineering** to provide intelligent reporting and real-time analytics.

AI-Powered Student Course Allocation System - Node.js | React | Typescript | Express.js | PostgreSQL | Generative AI

- Developed a full-stack course allocation system using **React.js, Node.js, Express.js**, and **PostgreSQL** to automate student seat allocation based on merit, reservation policies, and course preferences.
- Integrated a **Generative AI assistant** using **Prompt Engineering** to generate allocation reports and answer natural language queries on course statistics, seat utilization, rejection rates, and category-wise allocations.
